Project Delivery Methodology

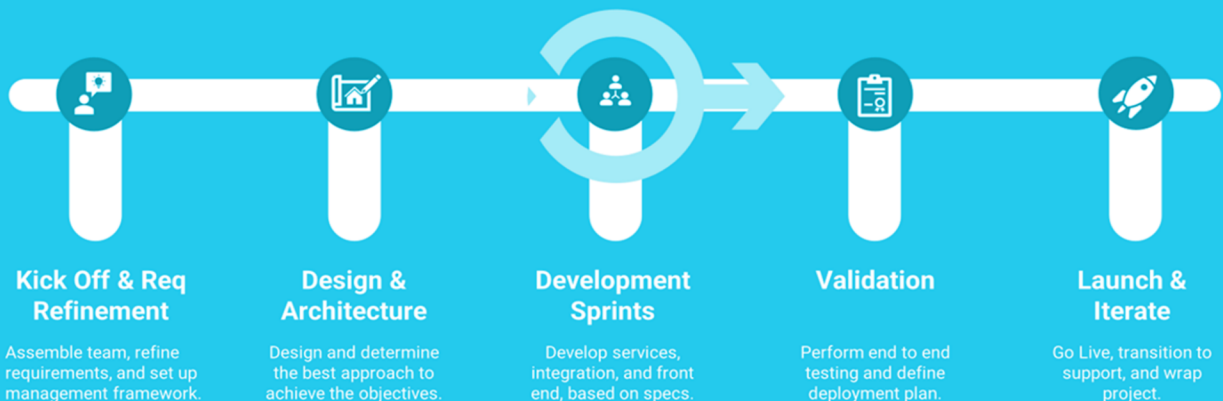

Journey Manager Certified Partner for 10+ Years

Accutive Project Delivery Framework

Hybrid Delivery that adheres to the Temenos Implementation Methodology.

PROJECT DELIVERY FRAMEWORK

For almost 15 years, Accutive has partnered with leading banking, insurance and technology companies to implement innovative solutions and reduce operational cost.

Accutive

5

Quality First Approach

Low Dev to QA Ratio

We take quality seriously - so you may see more QA resources than you're used to when working with Accutive!

Detailed Requirement Analysis

Minimize late changes and issues through clear understanding of requirements before development begins.

Zero Defect Mentality

We know that defect minimization makes your life easier!

The Accutive Approach

Extend your team

Broad + Deep Expertise

We employ former
bankers and Temenos
developers

Quality First Approach

Extremely low, industry-
leading defect rates.
Focus on business
process optimization.

Client Focused

Committed to providing
incredible service that goes
above and beyond.

About Accutive FinTech

We have been serving banks + credit unions, like yours, for over 14 years with 98% client satisfaction. We strive to differentiate ourselves by drawing on our deep FinTech expertise to deliver exceptional quality work and client service that exceeds your expectations. Our partner company, Accutive Security is an IAM + Cryptography Center of Excellence.
